Detailed description of project					Type of services provided		
<p>The aim of the scaled-up program is to:</p> <ul style="list-style-type: none"> A) Build the capacities of management and workers on “cleaner production” and “environmental management systems” to achieve set quantitative and qualitative targets for sustainable water, energy and chemical use, and re-use, in manufacturing processes; pollution prevention; and waste-water treatment. B) Support production companies to implement recommended projects to these targets at the factory level. C) Catalyze a self-perpetuating shift towards sustainable water use in production and water risk mitigation.
