Sustainable Development and Cleaner Production Center (SDCPC)	Turkey	100	1	Municipality of Kadıköy	Municipality of Kadıköy	April 2013 – July 2013	
Detailed description of project					Type of services provided		
<p>The main objective of the project is to design ecological regions, develop energy-oriented strategies, perform tailor-made regional measurements and define main course of action required to transform the Municipality into a more sustainable habitat with the main focus on greenhouse gases and climate change. Additionally, a parallel goal is to foster and spread environmentally conscious behavior and sustainable way of life in the local community.</p>					<ul style="list-style-type: none"> ✓ Report the current status of carbon emissions from district-wide ✓ Provide recommendations regarding reduction of carbon emissions, particularly in energy-intensive sectors ✓ Recommendations for adaptation to newly proposed Turkish regulations, international agreements and EU directives regarding carbon emissions, carbon <ul style="list-style-type: none"> ✓ economy and climate change
